

School Security Applications

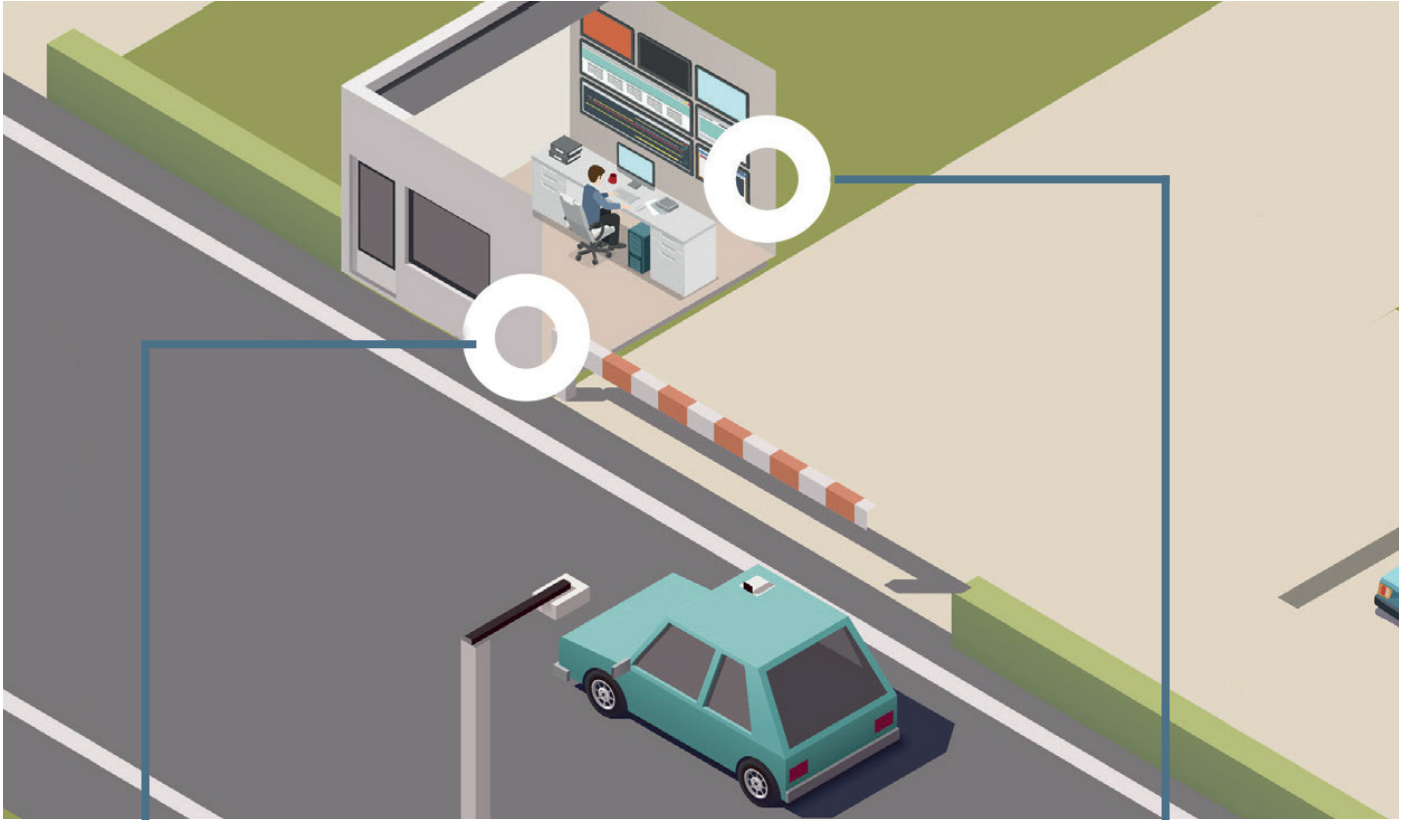

Introduction

GBSG's School Security Applications are designed to increase safety and ensure that your school can make its students secure, with confidence and peace of mind.

Gate

Vehicle Entrance & Exit Control + Intercom

ANPR Camera

Controls vehicle entrance and exit via number plate recognition

- ▶ Number plate recognition and recording
- ▶ Automatically releases employee vehicles
- ▶ Warning on barred-list vehicles (barrier kept closed)
- ▶ Provides reports on passing vehicles

Stainless Steel Door Station

Make contact with the Control Room

- ▶ Noise suppression and echo cancellation
- ▶ Low illumination

Car Parking

PTZ Monitoring

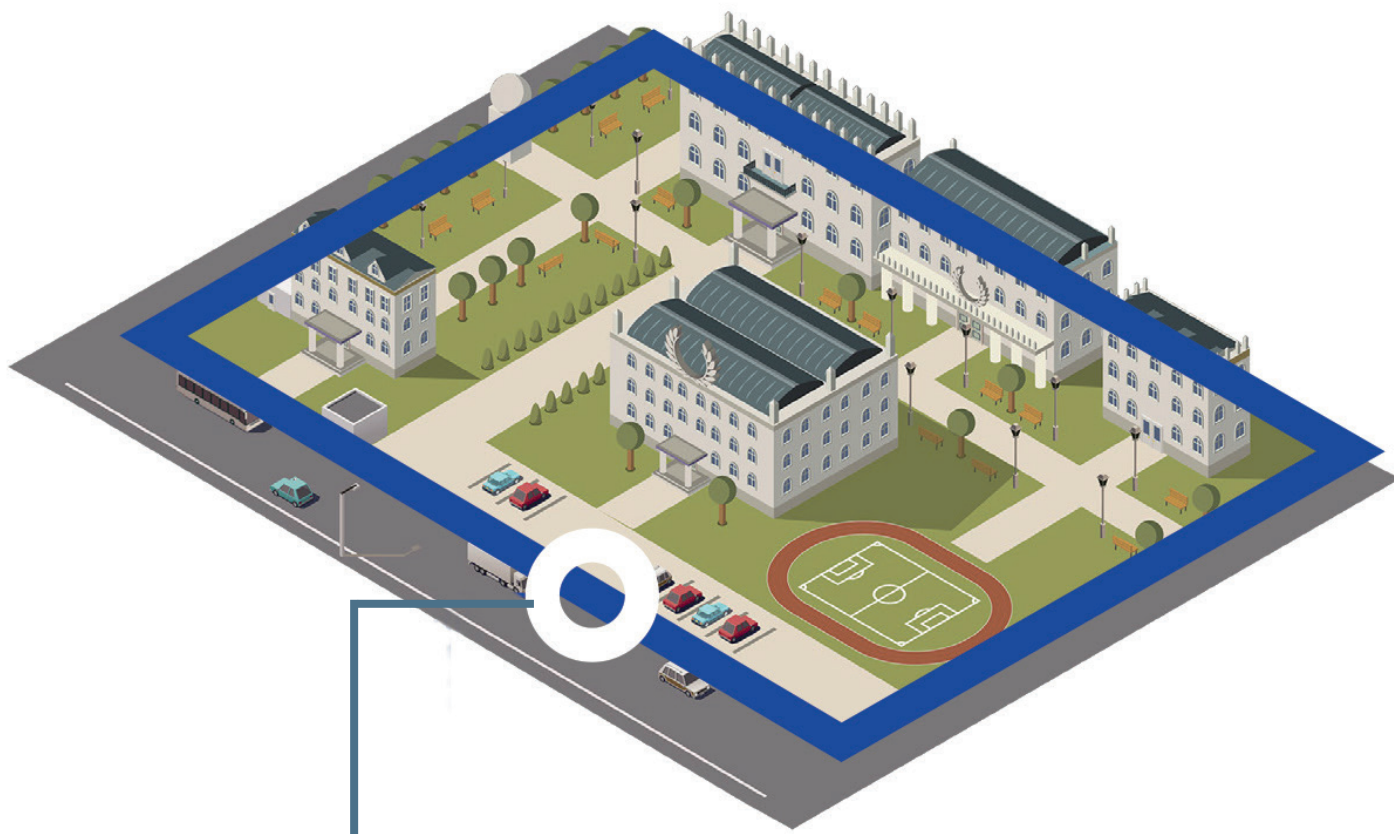

Darkfighter PTZ

Captures bright and clear images even in ultra-low-light environments by combining infrared and visible light

- ▶ Processes colour and brightness independently, outputting one full-colour image
- ▶ Efficient H.265 technology saves on bandwidth and storage
- ▶ Monitor parking spaces to provide evidence in the event of incidents such as vehicle accidents, thefts, etc.
- ▶ PTZ cameras can provide a flexible people tracking function to keep a watchful eye over any suspicious individuals.

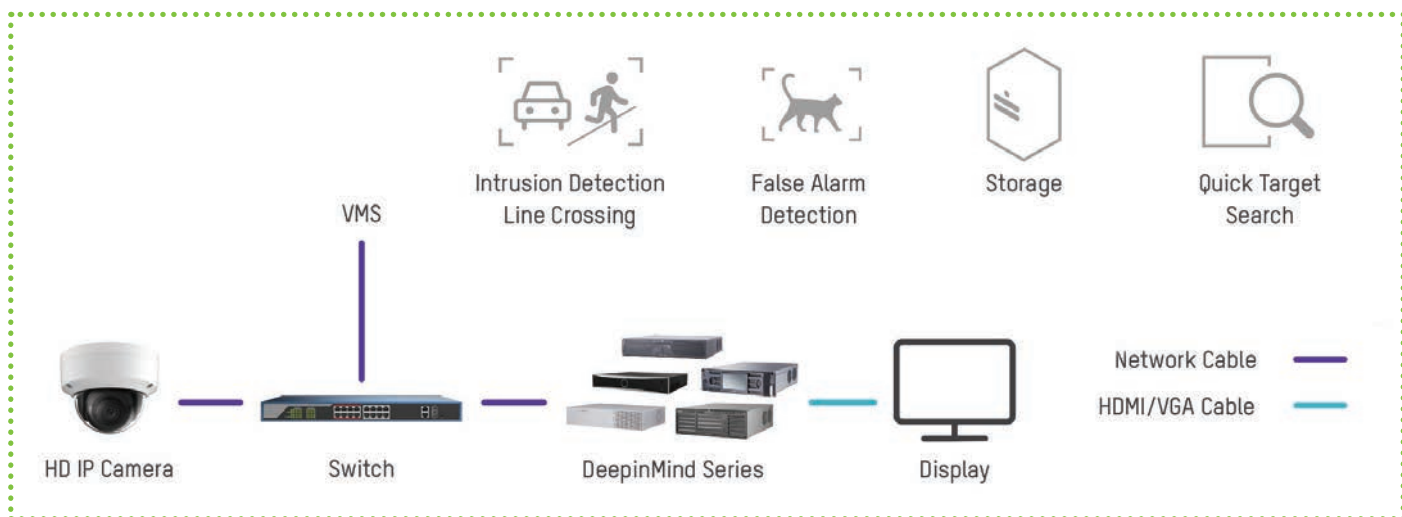

Perimeter

False Alarm Reduction

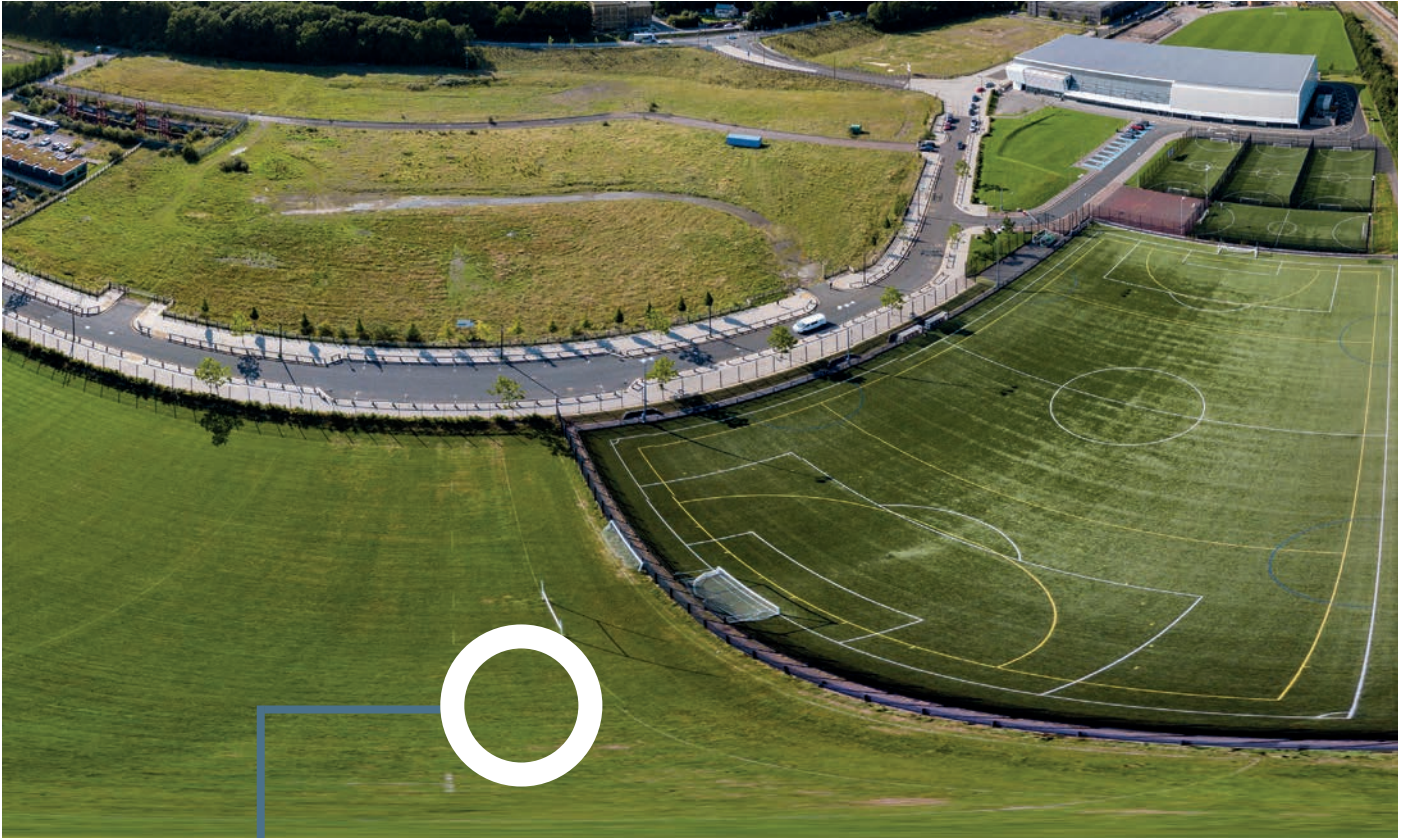

DeepinMind NVR

- Receives intrusion and line crossing detection information from cameras, and identifies humans and vehicles in the video to reduce false alarms
- Saves on costs and time compared with conventional CCTV systems

Sports Ground

Panoramic Monitoring

PanoVu Camera

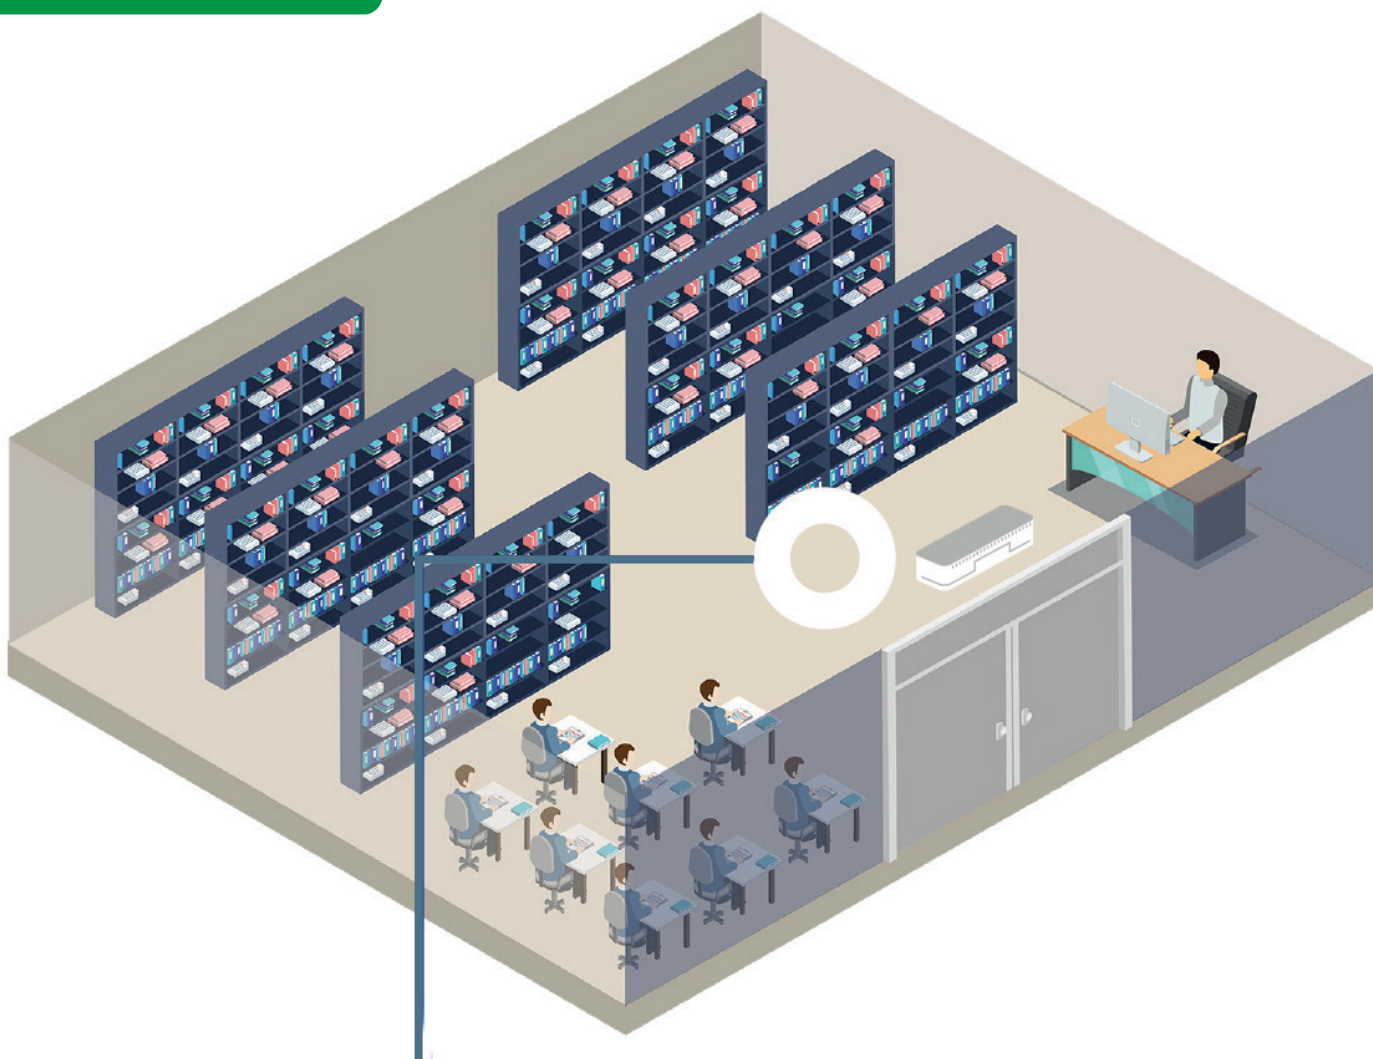

- ▶ A single camera with 360° view that covers the whole sports ground area
- ▶ Eight lenses with a single IP connection for easy installation and configuration

Detail View - Not only an expansive 360° panoramic view: see any detail as clearly as required.

Library

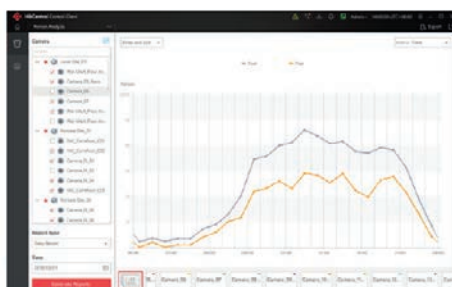

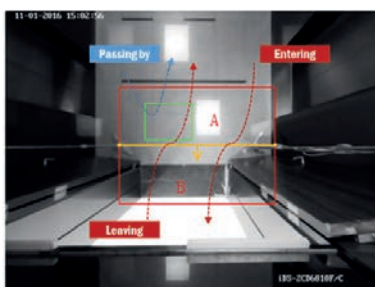

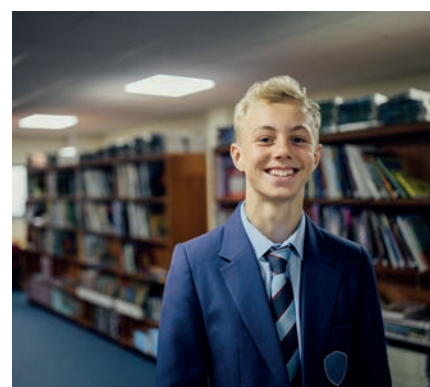

People Counting

People Counting Camera

Documenting visitor traffic

- ▶ Visitor flow control is based on the real-time number of people inside, ensuring social distance is maintained
- ▶ Daily, weekly, and monthly visitor flow reports contribute to improved personnel scheduling and effectively enhance resource utilisation

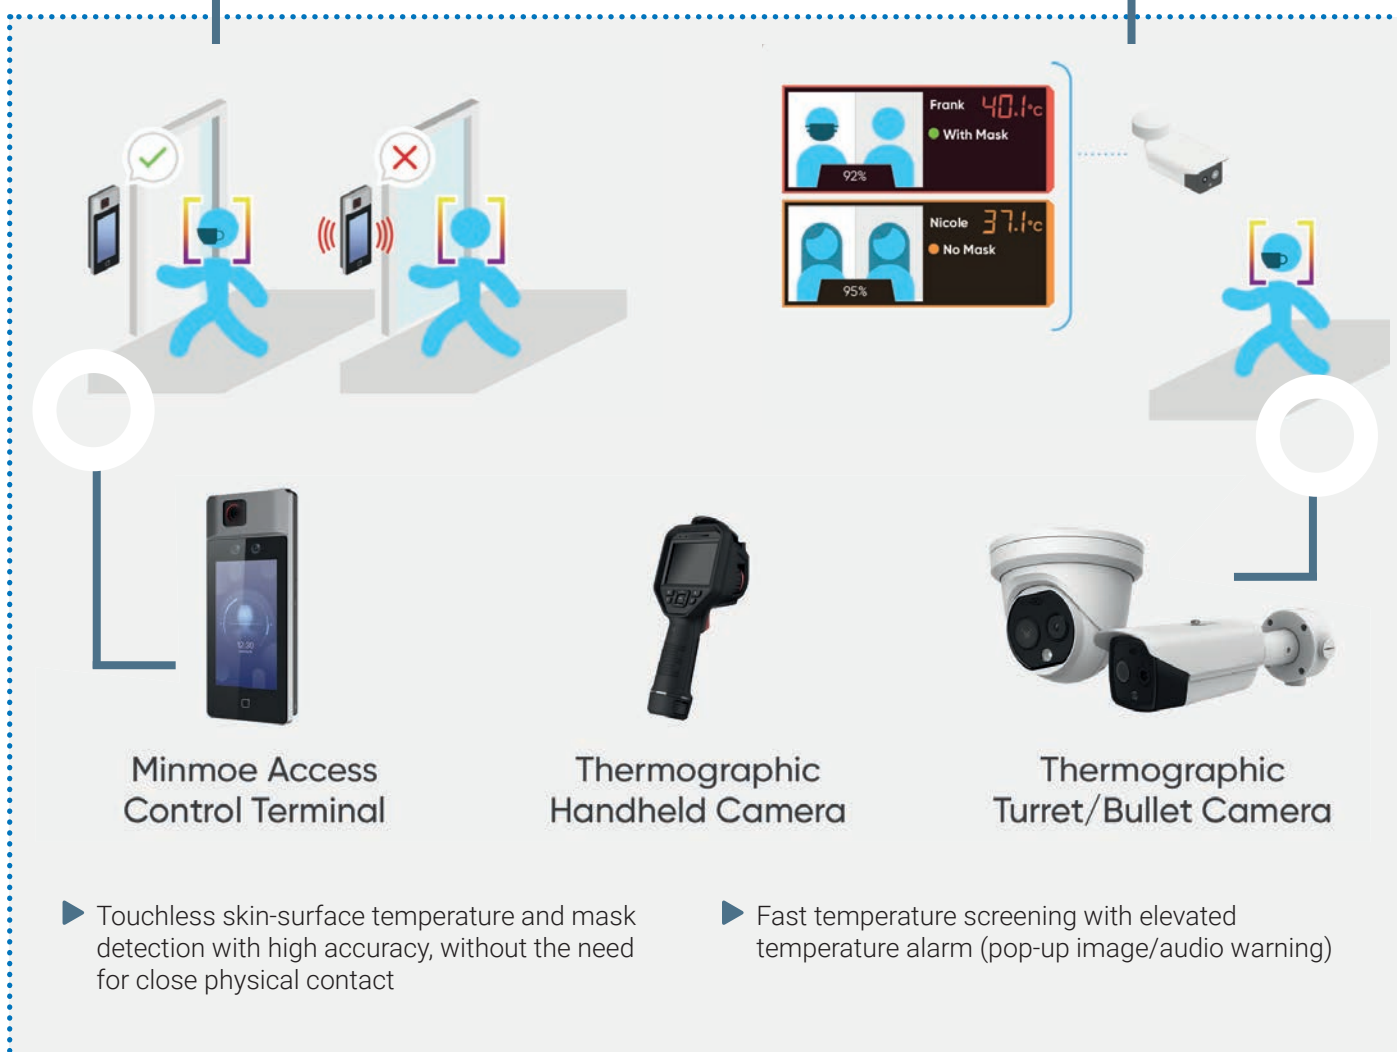

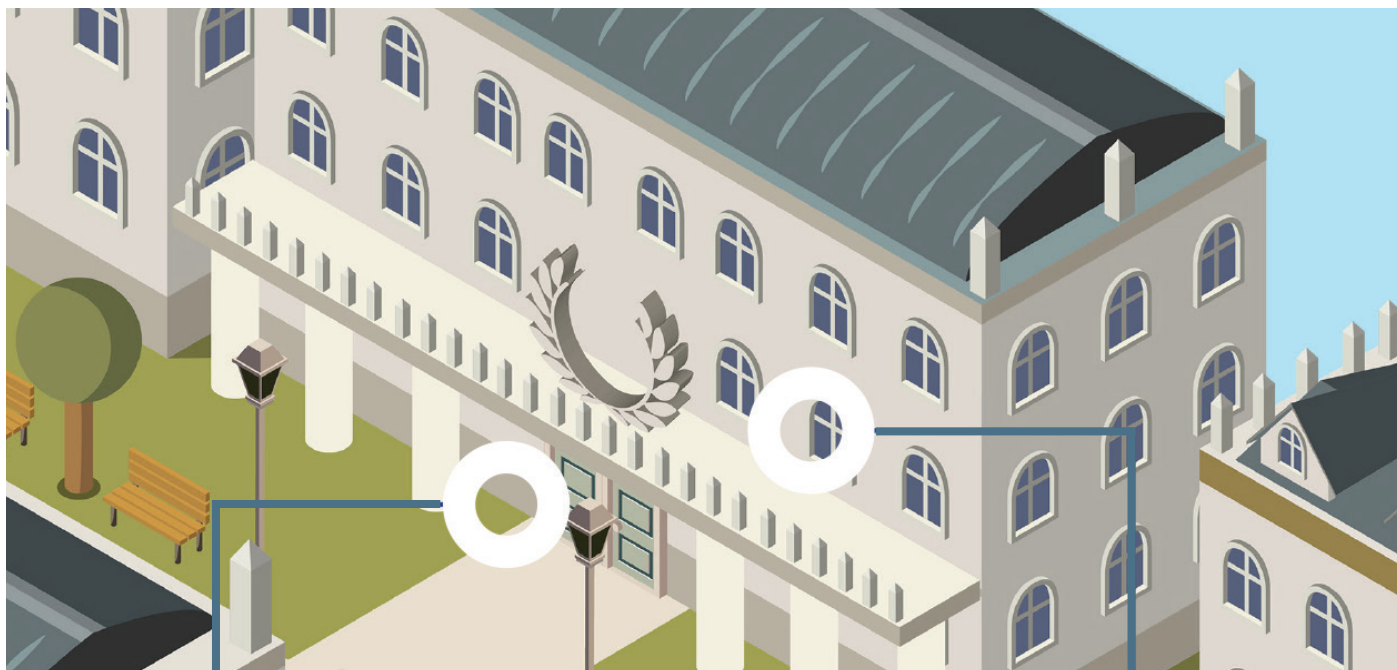

Having staff management issues?

People counting can help optimise staffing schedules and operations, using the generated insights to precisely increase the number of staff during busy times to improve services, and then reduce staff during quieter times to increase operational efficiency.

Teaching Building

Touchless Temperature Screening & Mask Detection

Teaching Building

Behaviour Analysis

► Sudden change of sound intensity detected

► Trip and fall

► Congestion

► Fighting

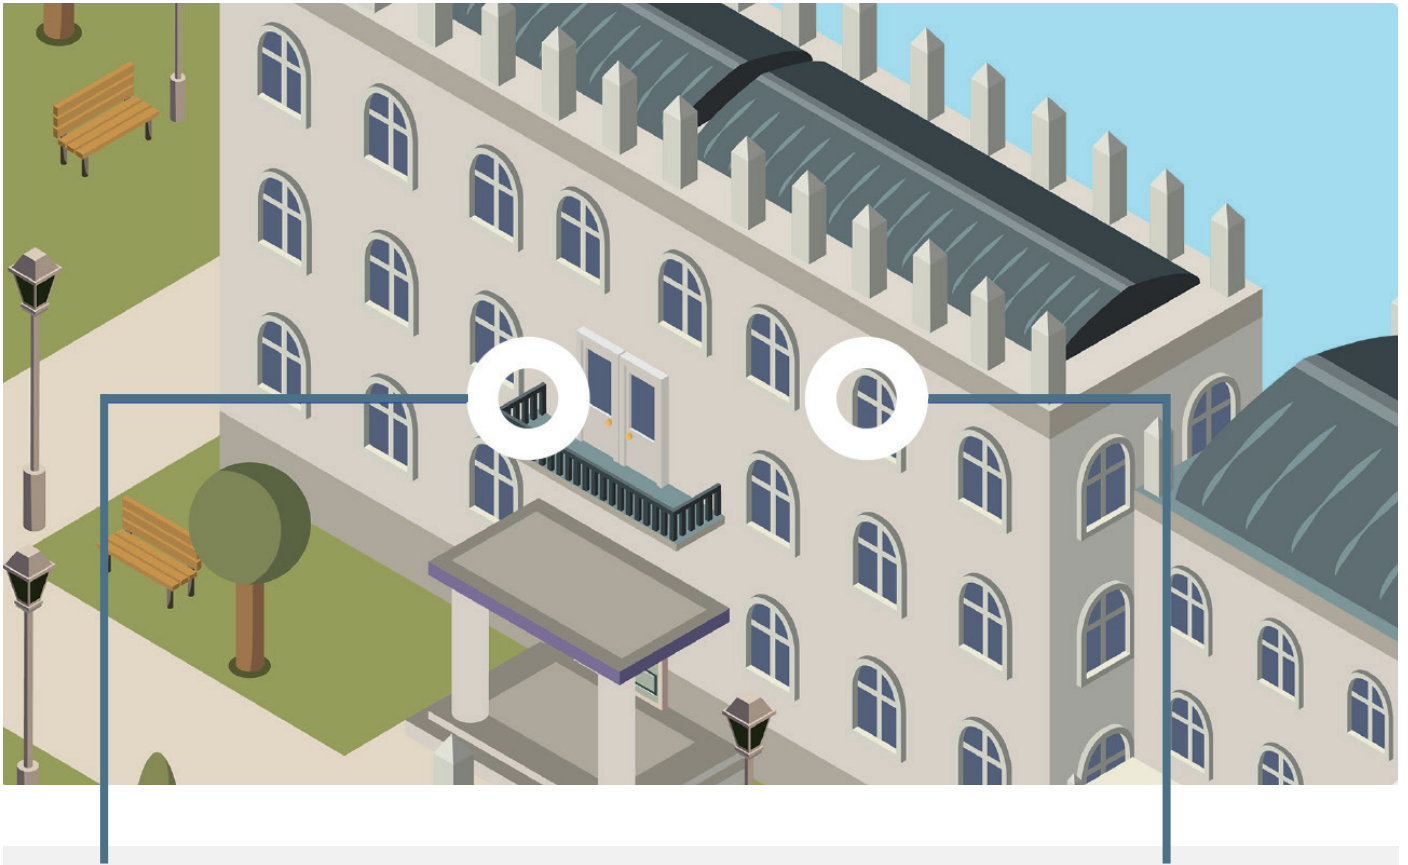

DeepinMind NVR

- Detects behaviour of people gathered in a specific scene
- Prevents dangerous events

Residential

Access Control & Digital Display

Access Control

- ▶ Supports card, fingerprint, face authentication modes, all in one terminal
- ▶ Built-in card reader, for easy installation
- ▶ Cross-system linkage between CCTV and access control provides situational awareness

Digital Display

- ▶ Broadcast a range of useful school information instantly or as scheduled.

Control Room

Central Management

Central Video Monitoring

Completely centralised to achieve vast integration capabilities and deliver more powerful solutions.

Business Intelligence

The BI dashboard provides a flexible, customised tabular view interface to provide decision makers with actionable analysis reports.

Business Intelligence

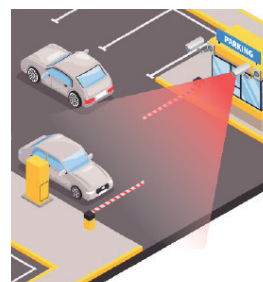

When someone has an elevated temperature or is not wearing a mask, event & alarm management can guide you to the related video, picture and its location via map, allowing appropriate responses to be initiated.

► People Counting

► Temperature Analysis

► Vehicle Analysis
